

ANNEMaxxGROW

CEREAL

EXPERIMENTAL TRIALS IN 2024

Product Overview

AnneMaxx Grow is an organic 6-3-2 granular nitrogen product. It is a slow-release fertilizer which releases nitrogen for 3-4 weeks after application. It is derived from hydrolyzed proteins and amino acids which work synergistically. It compliments all AnneMaxx AG products.

Application Guidelines

Ideally placed with seed in the seed row. Can also be broadcast, spin-spread, or floated on.

- Application rates: 20-50 lbs per acre.
- Low dust product, but like any granular product, will breakdown with excessive handling. Please wear a dust mask when handling.

Guaranteed Analysis Active Ingredients

Total Nitrogen (N)	6.00%
Total Phosphorous (P ₂ O ₅)	3.00%
Total Potash (K ₂ O)	2.00%

*AnneMaxx Worm Castings

Features & Benefits

- Slow release and easy flow granules. Approved for organic use.
- Contains no salt and adds organic matter to the soil.
- Contains organic and inorganic acids in a pH buffer matrix.
- Releases nitrogen throughout the growing season. Unlike manures and synthetic fertilizers, it is less prone to leach or volatilize.
- Improves soil biology around the rhizosphere.
- Increases vegetative growth and yield.

AVAILABLE IN 20.4KG (45LB) OR 1 TONNE BAGS
